The PSATHA *edition*

Classic is always classy!

The PSATHA collection is a real evidence that railings are artworks.

The main purpose of railings is to provide safety and code compliance. Alumenco railings are offering more than that, timeless, classic beauty and unique elegance.

Apartments, hotels and private houses utilize ALUMINCO railings. Whether it is a new building or a remodeled one, classic railings add the finishing touch.

Made from an aluminium frame and support with infills of cast aluminium alloy with the right mechanical properties, our classic railings offer durability against harsh weather conditions and strength even for heavy traffic areas.

La collection PSATHA est une preuve existante que les garde-corps sont des véritables œuvres d'art.

Suite à la nouvelle expression épanouissante d'esthétisme moderne, notre approche de conception sur les balustrades classiques se déroule à des passages frais, mais restant également à la ligne que le classique est toujours chic.

Le corps solide du garde-corps est souligné par les propriétés mécaniques et la résistance intérieure du cadre en aluminium, ainsi que le remplissage couvert des représentations conceptuelles, ajoutant du caractère et du style, et faisant le garde-corps une œuvre d'art. Une balustrade qui ressemble à une vraie sculpture.

Telle est la philosophie derrière la conception de l'édition PSATHA.

Cette philosophie durable garantit des balustrades classiques raffinées toujours construites pour la beauté.
